

Indiana State Migration, 2018–2023

Population and income movement over five years

KEY FINDINGS: INDIANA

IN Cumulative 5-year net migration

+35,036 residents

–860 high earners

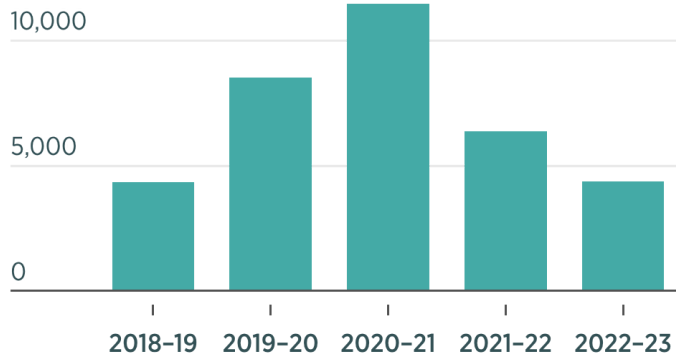

IN Cumulative 5-year net income gain/loss

–\$1.6 billion

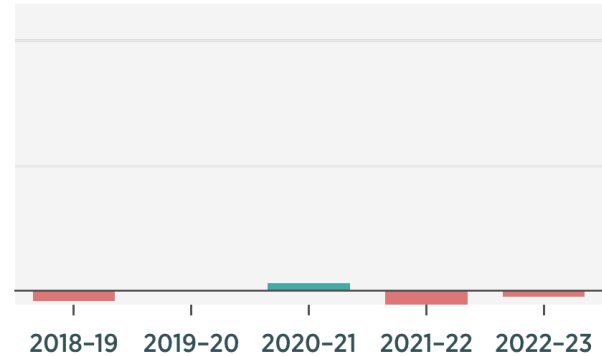

–\$1.8B from high earners

Indiana: Net migration from other states (number of residents, 2018–2023)

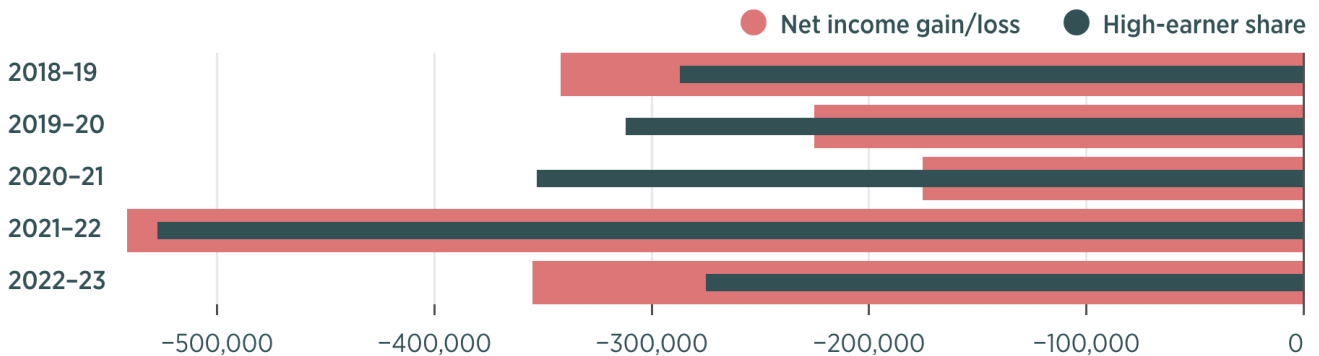

Net migration

High-earner share

Indiana: Net income gain/loss (\$ thousands, 2018–2023)

The calculations are based on "Gross migration file" data, 2018–2023, from the Internal Revenue Service (IRS), "SOI Tax Stats - Migration Data" (dataset), last reviewed March 20, 2026.

"High earners" refers to taxpayers in the highest tax bracket (more than \$200,000 adjusted gross income).
