

Utah State Migration, 2018–2023

Population and income movement over five years

KEY FINDINGS: UTAH

UT Cumulative 5-year net migration

+38,242 residents

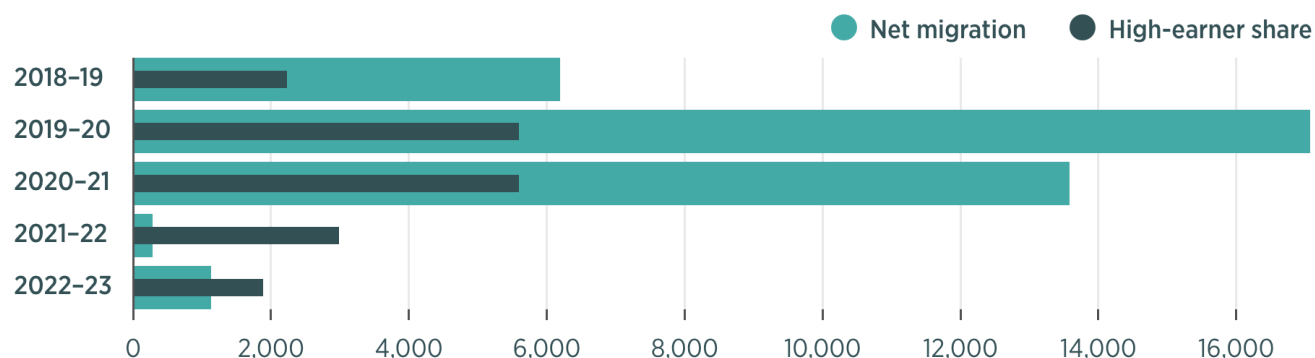

+18,294 (47.8%) high earners

UT Cumulative 5-year net income gain/loss

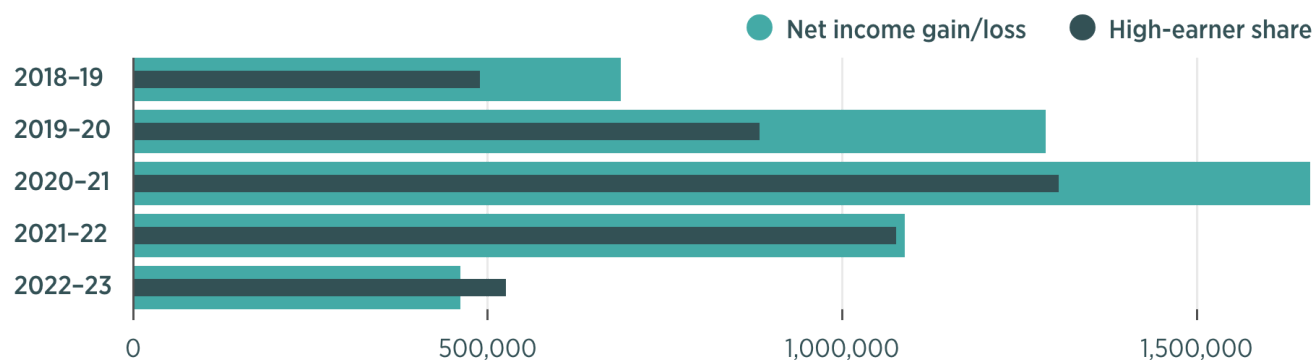

+\$5.2 billion

+\$4.3B (82.7%) from high earners

Utah: Net migration from other states (number of residents, 2018–2023)

Utah: Net income gain/loss (\$ thousands, 2018–2023)

The calculations are based on "Gross migration file" data, 2018–2023, from the Internal Revenue Service (IRS), "SOI Tax Stats - Migration Data" (dataset), last reviewed March 20, 2026.

"High earners" refers to taxpayers in the highest tax bracket (more than \$200,000 adjusted gross income).
