

RANK
50

CONNECTICUT

SUMMARY

On the basis of its fiscal solvency in five separate categories, Connecticut ranks 50th among the US states and Puerto Rico for its fiscal health. Connecticut's fiscal position is poor across all categories. With between only 0.46 and 1.19 times the cash needed to cover short-term liabilities, Connecticut's revenues matched only 94 percent of expenses, producing a deficit of \$505 per capita. The state is heavily reliant on debt to finance its spending. With a negative net asset ratio of -0.88 and liabilities exceeding assets by 34 percent, per capita debt is \$9,077. Total debt is \$20.88 billion. Unfunded pensions are \$83.31 billion on a guaranteed-to-be-paid basis, and other postemployment benefits (OPEB) are \$19.53 billion. Total liabilities are equal to 53 percent of total state personal income.

2014 TOTAL LONG-TERM OBLIGATIONS

STATE DEBT

	General obligation bonds	Total primary government debt	State personal income	Ratio of debt to state personal income	Total primary debt per capita
Connecticut	\$15.28 billion	\$20.88 billion	\$233.29 billion	9.0%	\$5,807
National average	\$6.60 billion	\$13.76 billion	\$288.25 billion	6.0%	\$2,144

PENSION LIABILITY

	Unfunded pension liability	Funded ratio	Market value of unfunded liability	Market value of funded liability ratio
Connecticut	\$26.18 billion	52%	\$83.31 billion	26%
National average	\$20.46 billion	74%	\$86.85 billion	40%

OTHER POSTEMPLOYMENT BENEFITS (OPEB)

	Total unfunded OPEB	Funded ratio
Connecticut	\$19.53 billion	1%
National average	\$11.14 billion	12%

UNDERLYING RATIOS

	Cash ratio	Quick ratio	Current ratio	Operating ratio	Surplus (or deficit) per capita	Net asset ratio	Long-term liability ratio	Long-term liability per capita
Connecticut	0.46	1.11	1.19	0.94	-\$505	-0.88	1.34	\$9,077
National average	2.40	3.18	3.54	1.06	\$448	-0.03	0.47	\$3,069

	Tax-to-income ratio	Revenue-to-income ratio	Expenses-to-income ratio	Pension-to-income ratio	OPEB-to-income ratio	Primary debt-to-income ratio
Connecticut	0.06	0.12	0.13	0.36	0.08	0.09
National average	0.06	0.14	0.13	0.31	0.03	0.06

KEY TERMS

- **Cash solvency** measures whether a state has enough cash to cover its short-term bills, which include accounts payable, vouchers, warrants, and short-term debt. (Connecticut ranks 49th.)
- **Budget solvency** measures whether a state can cover its fiscal year spending using current revenues. Did it run a shortfall during the year? (Connecticut ranks 50th.)
- **Long-run solvency** measures whether a state has a hedge against large long-term liabilities. Are enough assets available to cushion the state from potential shocks or long-term fiscal risks? (Connecticut ranks 47th.)
- **Service-level solvency** measures how high taxes, revenues, and spending are when compared to state personal income. Do states have enough “fiscal slack”? If spending commitments demand more revenues, are states in a good position to increase taxes without harming the economy? Is spending high or low relative to the tax base? (Connecticut ranks 27th.)
- **Trust fund solvency** measures how much debt a state has. How large are unfunded pension liabilities, OPEB liabilities, and state debt compared to the state personal income? (Connecticut ranks 39th.)

For a complete explanation of the methodology used to calculate Connecticut’s fiscal health rankings, see Eileen Norcross and Olivia Gonzalez, “Ranking the States by Fiscal Condition,” 2016 ed. (Mercatus Research, Mercatus Center at George Mason University, Arlington, VA, June 2016).
